In the case of medical examinations (HGV etc) we ask for payment before the medical is carried out.

Explanation of Fees.

The rates charged by The Calverton Practice have been agreed by all of the partners in the practice and reflect the fact that such items are Non – NHS work. Rates are reviewed annually.

Where available, Current British Medical Association (BMA) recommended fees are provided for reference.

In general, fees are based on the complexity of the form, report, or examination and are based on the time required for completion.

We are happy to advise patients of the cost of such work prior to undertaking it.

Some forms can be completed by other professionals e.g. hospital consultants or physiotherapists.

Where more than one form of a similar nature is required we are happy to quote a fee in advance of completion.

Please note that we do not countersign Passport applications.

We will carry out any of the above work as soon as possible but please bear in mind that dealing with routine NHS matters takes priority.
